7.1.2	Directing II: Technical Production & Stage Management	2	Knowledge: Possess an understanding of performance techniques and stage management procedures in performances presented by Companies/Institutions/Organizati ons.  Specific Skills: Demonstrate the ability to conceive and manage lighting, sound, costume, makeup, and stage design, as well as manage stage design and management applied to artistic performance productions.  Attitude: Exhibit adaptive, critical, and resilient behaviors in addressing issues or crises based on analytical abilities occurring within a Company/Institution/Organization . Uphold high standards of social and academic ethics, discipline, social sensitivity, and assume individual responsibility for work in communication within performing arts independently.	A course emphasizing students' ability to plan production management and apply these plans in artistic performance production

# THE LEARNING OUTCOMES OF INTERNSHIP (ELECTIVE SUBJECTS)

No.	SUBJECT	CREDIT	<b>Learning Outcomes</b>	Description
7.1	Internship in Communication	12		
		ELECTIV	ES ((min. 4 subjects, total max.	8 credits)
7.1.3	Digital Content Production	2	Knowledge: Understands the concept of producing, promoting, and marketing content through digital media owned by Companies/Institutions/Organi zations.  Specific Skills: Ability to convey messages verbally/non-verbally and/or produce messages in the form of text/visual/audio/video distributed through digital media.  Attitude: Exhibits adaptive, critical, and resilient behaviors in addressing issues or crises based on analytical abilities occurring within a Company/Institution/Organizat ion. Upholds high standards of social and academic ethics, discipline, social sensitivity, and assumes individual responsibility for work in the field independently.	A practical course encouraging students to understand the concepts and practices in producing, promoting, and marketing content through digital media with Partners. Students can engage as production team members (Writers, Editors, Designers), promotion, and marketing capable of delivering messages verbally/non-verbally and/or producing messages in the form of text/visual/audio/video distributed through digital media.
7.1.4	Digital Startup Growth Strategy	2	Knowledge: Understands the technical and non-technical concepts as well as digital data analysis as forms of communication strategy in developing Digital Startups.	A practical course encouraging students to develop and implement communication strategies used for Digital Startup development. Students can engage as strategic team assistants and/or

	1			
			Specific Skills: Ability to develop planning, management, implementation, and evaluation of communication strategies implemented (partially/entirely) with the aim of developing Digital Startups.	research & development teams to help develop and implement communication strategies in Startup Companies/Institutions/Organizati ons utilizing digital technology.
			Attitude: Exhibits adaptive, critical, and resilient behaviors in addressing issues or crises based on analytical abilities occurring within a Company/Institution/Organizat ion. Upholds high standards of social and academic ethics, discipline, social sensitivity, and assumes individual responsibility for work in the field independently.	
7.1.5	Creativity & Innovation for Events	2	Knowledge: Understands various events focused on creativity and innovation, organized to meet the needs and objectives of Companies/Institutions/Organizations.  Specific Skills: Ability to plan and/or execute events as new ideas/concepts using resources owned by Companies/Institutions/Organizations.  Attitude: Exhibits adaptive, critical, and resilient behaviors in addressing issues or crises based on analytical abilities occurring within a Company/Institution/Organizat	A practical course encouraging students to plan and/or implement new ideas/concepts in the form of events focused on creativity and innovation, according to the needs and objectives of Partners. Students can engage in event teams as creators and/or support teams in planning and/or implementing established ideas/concepts.

			ion. Upholds high standards of	
			social and academic ethics, discipline, social sensitivity, and assumes individual responsibility for work in the field independently.	
7.1.6	Leadership Decision Making Strategies	2	Knowledge: Understands the strategic stages in the process of developing leadership skills for an individual in Companies/Institutions/Organi zations. Decisions are made based on local wisdom, research results, and analysis of related concepts.  Specific Skills: Ability to communicate interpersonal and organizational communication skills in decision-making at small, medium, and large-scale work units.  Attitude: Exhibits adaptive, critical, and resilient behaviors in addressing issues or crises based on analytical abilities occurring within a Company/Institution/Organizat ion. Upholds high standards of social and academic ethics, discipline, social sensitivity, and assumes individual responsibility for work in the field independently.	A practical course encouraging students to develop leadership qualities through communication skills during decision-making in Partner work units. Students can engage as team members in departments/divisions to manage one or more entrusted work units.
	Event		Knowledge: Understands strategies and techniques for event management through pre-event, event, post-event	A practical course encouraging students to master event production management through pre-event, event, post-event stages
7.1.7	Production  Management	2	stages to meet the needs and objectives of Companies/Institutions/Organi zations.	using external and internal resources from Partners effectively and efficiently. Students can engage as event teams directly involved in the

			Specific Skills: Ability to implement all stages of event production and effectively manage resources.	event production process.
			Attitude: Exhibits adaptive, critical, and resilient behaviors in addressing issues or crises based on analytical abilities occurring within a Company/Institution/Organizat ion. Upholds high standards of social and academic ethics, discipline, social sensitivity, and assumes individual responsibility for work in the field independently.	
			Knowledge: Understands event management focused on promotional activities and sponsorship to support events organized by Companies/Institutions/Organizations.	
7.1.8	Managing Event Promotion & Sponsorship	2	Specific Skills: Ability to implement all stages of event production and effectively manage resources.	A practical course encouraging students to master event management, especially in planning and executing promotional activities and
			Attitude: Exhibits adaptive, critical, and resilient behaviors in addressing issues or crises based on analytical abilities occurring within a Company/Institution/Organizat ion. Upholds high standards of social and academic ethics, discipline, social sensitivity, and assumes individual responsibility for work in the field independently.	sponsorships to support events organized by Partners. Students can engage as event teams directly involved in promotional and sponsorship activities for an event.

		1		
7.1.9	Commercial Copywriting	2	Knowledge: Understands copywriting for media (conventional and digital) and other advertising media as a form of message distribution for Companies/Institutions/Organi zations.  Specific Skills: Ability to analyze and write messages to persuade target markets/audiences.  Attitude: Exhibits adaptive, critical, and resilient behaviors in addressing issues or crises based on analytical abilities occurring within a Company/Institution/Organizat ion. Upholds high standards of social and academic ethics, discipline, social sensitivity, and assumes individual responsibility for work in the field independently.	A practical course encouraging students in writing persuasive messages in media (conventional and digital) and other advertising media, based on analysis of target markets/audiences targeted by Partners. Students can engage as promotion and/or marketing teams focusing on message production for promotional/advertising purposes.
7.1.10	Handling Media & Public Figures	2	Knowledge: Understands message delivery and manages relations between Companies/Institutions/Organi zations and Media, as well as Public Figures as stakeholders.  Specific Skills: Ability to orally and in writing communicate and interact with Public Figures, Journalists, Media Organizations, and other stakeholders based on data and facts.  Attitude: Exhibits adaptive, critical, and resilient behaviors in addressing issues or crises	A practical course encouraging students to master oral and written message delivery and manage relations between Partners and Media as well as Public Figures according to the communication goals of Partners. Students can engage in Partner teams focusing on managing relations with Media and other Communicators.

		based on analytical abilities occurring within a Company/Institution/Organizat ion. Upholds high standards of social and academic ethics, discipline, social sensitivity, and assumes individual responsibility for work in the field independently.

#### **UNIT V**

#### INTERNSHIP SUPERVISORS' TASKS

The Internship Supervisors are faculty members from the Faculty of Communication and the Faculty of Business of the London School of Public Relations (LSPR) who are tasked with guiding, monitoring, and evaluating students undergoing internship. In the execution of their duties, the Internship Supervisors are provided with a Letter of Assignment by the Careers & Employability Centre.

The duties and authorities of the Internship Supervisors are as follows:

- 1. Monitoring the progress of the internship for the students under their guidance.
- 2. Providing guidance and consultation to the students under their guidance.
- 3. Conducting monitoring of the students under their guidance throughout the internship period.
- 4. Providing internship assessments based on the Internship Reports submitted by the students by the specified deadline set by the Careers & Employability Centre.
- 5. The assessment as mentioned in point 4.1 must be submitted via Siakad no later than 10 (ten) days after the deadline for the submission of the Internship Reports.
- 6. Arranging meetings with the Host Companies when necessary and taking other actions to ensure the smooth implementation of the internship.
- 7. Providing input to the Careers & Employability Centre Team regarding taking actions or sanctions against any students who engage in undisciplined behavior.
- 8. Communicating all matters related to the internship implementation to the Careers & Employability Centre Team.

In order to achieve the objectives of the internship, it is necessary for the Internship Supervisors to provide guidance, consultation, and monitoring to the students under their guidance. The process of guidance, consultation, and monitoring is as follows:

# 1. First Internship Briefing:

During this session, the supervisor explains the internship procedures, the documents required by the students or to be provided by the students to the host company, the duration of the internship, the companies that can and cannot be chosen as host companies, what needs to be prepared to participate in the internship program, as well as tips for the students.

## 2. Second Internship Briefing:

In this session, the supervisor explains the ethics of delivering messages, reminds again about the documents required to participate in the internship program, monitors the students' internship activities, and provides a brief explanation of the Internship Report.

## 3. Third Internship Briefing:

In this session, the supervisor explains in detail about the Internship Report and monitors the internship activities of the students.
